Dear Colleague:

You are invited to exhibit at the 17th National Conference on Chronic Disease Prevention and Control. “Gateway to Lifelong Health: The Community Connection” is the theme for next year’s important forum on chronic disease prevention. The Conference will be February 19-21, 2003, at the Millennium Hotel in St. Louis, Missouri. This annual national conference attracts over 1,200 professionals.

The Chronic Disease Directors (CDD), The Centers for Disease Control and Prevention (CDC), and the Prevention Research Centers (PRC) Program are co-sponsoring the 17th annual conference. These organizations are responsible for directing major chronic disease services that include cardiovascular health; comprehensive cancer control services including breast, cervical, prostate, colorectal, lung and skin cancer; diabetes; and emerging chronic diseases such as obesity, osteoporosis, arthritis, asthma, and others. With this array of chronic disease prevention and control topics, participants and exhibitors can forge new working relationships and build or strengthen coalitions and partnerships.

We hope you will join us as an exhibitor and look forward to seeing you at this important conference.

Sincerely,

Brenda D. Reed
